Ok, well it's not that new but as alumni you should be sure your profile is connected to the correct University Page and that you are not following the old Business
If you don't see the new Olin logo next to your education profile, click on "edit profile" and within your education section click on "Olin" and then choose "change school". In the box type "Olin" and the new page will pop up. Click on it and save your profile. We are also asking that alumni unfollow the old Business Page.
