Olin College of Engineering

Declaration of Academic Major

Declaring a Major Students are expected to declare their major not later than the time of registration for the fourth semester. Major declaration forms must be signed by both student and adviser. Students declaring the Engineering major must also complete and submit an Engineering Plan of Study at the same time.

Changing a Major Changes of major can be submitted using a declaration of major form and a major course planning form (if appropriate). Students who change their majors should be aware of their remaining degree requirements. Reminder: the Olin tuition scholarship is for eight semesters only and all charges incurred in additional semesters are the responsibility of the student.

Process your request at the Registrar's Office, Campus Center 320. A hard copy of this form is necessary since it requires student and adviser signatures.

_____

Last Name   First Name   Middle Initial

_____   _____

Student ID Number   Previous Major (if applicable)

Are you interested in the Grand Challenge Scholars Program (GCSP)? ◯ YES   ◯ NO

Choice of Majors: Please select one major and/or major concentration combination as outlined below.

Check Major Choice	Major Code	Major Description leading toward a Bachelor of Science Degree	Concentration Code and Description
◯	ENG	Engineering	(blank – Student Designed)
◯	ENG	Engineering	(BE) Bioengineering
◯	ENG	Engineering	(C) Computing
◯	ENG	Engineering	(D) Design
◯	ENG	Engineering	(ROBO) Robotics
◯	ME	Mechanical Engineering	(no concentrations available)
◯	ECE	Electrical and Computer Engineering	(no concentrations available)
