

COURSE SUBSTITUTION APPROVED DEPARTMENTAL AND INDIVIDUAL COURSE LISTING: BABSON, BRANDEIS AND WELLESLEY

In order to guarantee the acceptance of substitution credit, students at Olin College must receive approval from the Course Substitution and Transfer Board (CSTB). The CSTB will ask appropriate faculty to review the course materials before granting approval. Course or credit substitution is defined as using a BBW* course or a different Olin course to meet a course or credit requirement. Approved substitutions will be recorded on the Olin degree audit and retained in the student academic file. Notes: GDCO = general degree credit only, cannot be used for Math, Science, Engineering or AHS distribution credit.

Coloring at Olin is relevant only for credit distribution totals. Acceptance for use in a major, AHS concentration or Entrp concentration is not represented below. Requests for such are part of planning your major in semester 3, 5, and/or 7 at 'declarathons' or 'reality checks'. Utilize the 'rule book', aka Olin College Catalog, for information about what constitutes a major, AHS concentration or Entrp concentration.

COURSE SUBSTITUTION APPROVED DEPARTMENTAL AND INDIVIDUAL COURSE LISTING: BABSON, BRANDEIS AND WELLESLEY

In order to guarantee the acceptance of substitution credit, students at Olin College must receive approval from the Course Substitution and Transfer Board (CSTB). The CSTB will ask appropriate faculty to review the course materials before granting approval. Course or credit substitution is defined as using a BBW* course or a different Olin course to meet a course or credit requirement. Approved substitutions will be recorded on the Olin degree audit and retained in the student academic file. Notes: GDCO = general degree credit only, cannot be used for Math, Science, Engineering or AHS distribution credit.

Coloring at Olin is relevant only for credit distribution totals. Acceptance for use in a major, AHS concentration or Entrp concentration is not represented below. Requests for such are part of planning your major in semester 3, 5, and/or 7 at 'declarathons' or 'reality checks'. Utilize the 'rule book', aka Olin College Catalog, for information about what constitutes a major, AHS concentration or Entrp concentration.

COURSE SUBSTITUTION APPROVED DEPARTMENTAL AND INDIVIDUAL COURSE LISTING: BABSON, BRANDEIS AND WELLESLEY

In order to guarantee the acceptance of substitution credit, students at Olin College must receive approval from the Course Substitution and Transfer Board (CSTB). The CSTB will ask appropriate faculty to review the course materials before granting approval. Course or credit substitution is defined as using a BBW* course or a different Olin course to meet a course or credit requirement. Approved substitutions will be recorded on the Olin degree audit and retained in the student academic file. Notes: GDCO = general degree credit only, cannot be used for Math, Science, Engineering or AHS distribution credit.

Coloring at Olin is relevant only for credit distribution totals. Acceptance for use in a major, AHS concentration or Entrp concentration is not represented below. Requests for such are part of planning your major in semester 3, 5, and/or 7 at 'declarathons' or 'reality checks'. Utilize the 'rule book', aka Olin College Catalog, for information about what constitutes a major, AHS concentration or Entrp concentration.
